

# Course Information and Schedule for EE6008 Collaborative Research and Development Project

## 1. General information

EE6008 is a MSc General Elective (GE) course with **3 AUs without pre-requisite**. The course is offered in the form of team project. The team size may vary depending on student selections, and the project supervisor may adjust the project scope based on the number of students who select the project. This is a **pass/fail** course. Only MSc students who opt for the "**Coursework Only**" study option are eligible for taking EE6008. Eligible students can select projects **under any MSc programme** in School of EEE.

## 2. Objective

The primary goal of this module is to provide students pursuing M.Sc. degrees in all five MSc programs in EEE with practical experience. Those who opt for the "Coursework Only" study option will have the opportunity to engage in the design, implementation, prototyping, and testing of electrical and electronic engineering projects or multi-disciplinary projects. This hands-on experience allows students to apply their design and innovative ideas within a collaborative team.

## 3. Implementation

Projects can be conducted in a laboratory or research centre and can take the form of hardware prototyping, experimental work, software design and development, design and simulation, modelling tasks, or any other relevant research and development methodology. The project's duration spans 13 weeks, from week 1 to week 13. During this period, students are required to dedicate **6 hours per week** to their project, following this schedule:

MANDATORY: @allocated lab; 9:30 am – 12:30 pm every Wednesday.

FLEXIBLE: The location and date/time for the remaining 3 hours will be determined by the students/supervisor.

## 4. Assessment

The overall assessment of each student in EE6008 consists of two components:

- Assessment by Supervisor (70%) on **Project Charter** (team), **Project Report** (a single report comprising of team report and individual reports), and **Oral Presentations** (5-minute video from the team and 3-minute video from each student).
- Assessment by Moderator (30%) on **Project Report** (a single report comprising of team report and individual reports) and **Oral Presentations** (5-minute video from the team and 3-minute video from each student)

An overall weighted mark is computed. A mark of 40% or above constitutes a pass.

## 5. Activities

| Week | Activities                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1    | Project briefing by project supervisor, identification of the team leader, and team bonding @allocated lab at 9:30 am-12:30 pm on Wednesday of teaching week 1.                                                                                                                                                                                                                                                                                                                                         |
| 2-3  | Project planning and preparation by students                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| 3    | Submission of <b>Project Charter</b> by team leader to Supervisor by email by <b>23:59 Friday of teaching week 3</b>                                                                                                                                                                                                                                                                                                                                                                                    |
| 2-13 | Project execution                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| 13   | <p>Submission of <b>Project Report</b> (<u>a single report</u> comprising of team report and individual reports) and <b>Oral Presentations</b> (5-minute video from the team and 3-minute video from each student) by <b>team leader</b> to <b>Supervisor</b> and <b>Moderator</b> by email by <b>23:59 hrs Friday of teaching week 13</b></p> <p>Note: Students can upload Project Report and Presentation Videos to a shared folder and send the share link to Supervisor and Moderator by email.</p> |

## 6. Project Budget

A budget of S\$1,000 is allocated for each project. The information on project reimbursement claims can be found in the document <<Information on reimbursement for project claims>>.
